Thank you for writing this reference letter on behalf of the applicant. The process for selecting the scholarship recipients is a blind process. That is, the selection committee will not know the identity of the applicants as they review the application forms. Therefore, OECU asks that you confine the applicant's identity to the current page of this reference (page 1) and that you not use the applicant's name in the body of the letter on page 2. The letter may be hand-written legibly, using dark, easily reproducible ink, or typed in a format that duplicates this form.
